

Reno Evening Gazette.

VOL. XXIII

RENO, WASHOE COUNTY, NEVADA, WEDNESDAY, JULY 20, 1887.

NO. 93

In Brief, and to the Point.
Dyspepsia is dreary. Disordered liver is misery. Indigestion is a foe to good nature.

The human digestive apparatus is one of the most complicated and wonderful things in existence. It is easily put out of order.

Greasy food, tough food, slopy food, bad cookery, mental worry, late hours, irregular habits, and many other things which ought not to be, have made American people a nation of dyspeptics.

But Green's August Flower has done a wonderful work in reforming this sad business and making the American people so healthy that they can enjoy their meals and be happy.

Remember: No happiness without health. But Green's August Flower brings health and happiness to the dyspeptic. Ask your druggist for a bottle. Seventy-five cents.

Don't Trifle with any Throat or Lung Disease, or the children are threatened with Croup or Whooping Cough, use Acker's English Remedy and prevent further trouble. It is a positive cure, and we guarantee it. Price 10 and 50 cents.

W. PINNIGER, Druggist.

Merit Will Tell.

Was never better demonstrated than when "Fryer's Abietine Remedies" were awarded diplomas at the late California State Fair at Sacramento and at the Mechanics Institute at San Francisco. W. Pinniger is agent for these celebrated "Abietine Remedies" and he offers to return your money if they do not give satisfaction. In buying, be sure the facsimile signature of D. F. Fryer is on each, as none are genuine without it.

Discoveries More Valuable than Gold.
Are SANTA ABIE, the California discovery for Consumption and Diseases of throat, chest and lungs, and CALIFORNIA CAT-R-CURE, the only guaranteed cure for Catarrh, Cold in the Head and kindred complaints. They are sold at \$1 per package or three for \$2.50, and are recommended and used by the leading physicians of the Pacific Coast. Not secret compounds, guaranteed by Osburn & Shoemaker, wholesale and retail agents.

Ladies.
In delicate health and all who suffer from habitual constipation, will find the pleasant California Liquid Fruit Remedy, Syrup of Figs, more easily taken, and more beneficial in effects than any other remedy. It acts promptly yet gently on the bowels, kidneys, liver and stomach, and does not sicken or debilitate. For sale by Wm. Pinniger, Reno, Nevada.

Unnecessary Misery.
Probably as much misery comes from habitual constipation as from any other derangement of the functions of the body. It is difficult to cure, for the patient that no one liked to take the medicines usually prescribed. Hamburg Figs were prepared to cure this difficulty, and they will be found pleasant to the taste of women and children. 25 cents. At all druggists. J. J. Mack & Co., proprietors, S. F.

Old And reliable Medicines are the best to depend upon.
Acker's Blood Purifier has been prescribed for years for all Impurities of the Blood. In every form of Scrofulous, Syphilitic or Mercurial Diseases it is invaluable. For Rheumatism, has no equal.

W. PINNIGER, Druggist.

The Verdict Unanimous.
W. D. Sult, druggist, Bippus, Ind., testifies: "I can recommend Electric Bitters as the very best remedy for rheumatism I have ever handled in my 25 years' experience. I have cured thousands of cases. Abraham Hare, druggist, Belleville, Ohio, affirms: 'The best selling medicine I have ever handled is the Original Electric Bitters. Thousands of others have testified their testimony, so that the verdict is unanimous that Electric Bitters do cure all diseases of the liver, kidneys and bowels. Only a half dollar a bottle at S. J. Hodgkinson & Co's, Drug store.'

Excitement in Texas.
Great excitement has been caused in the vicinity of Ft. Texas, by the recovery of J. E. Corley, who was so helplessly ill he could not turn in bed, or raise his head; everybody said he was dying of consumption. He was cured by the New Discovery was sent him. Finding relief, he bought a large bottle and a box of Dr. King's New Discovery by the time he had taken two boxes of pills and two bottles of the Discovery, he was well and had gained in flesh thirty-six pounds. Trial bottles of this great Discovery free at S. J. Hodgkinson & Co's.

An Absolute Cure.
The ORIGINAL ABETINE OINTMENT is only put up in large two-ounce tin boxes, and is an absolute cure for old sores, burns, wounds, chapped hands, and skin eruptions. Will positively cure all kinds of piles, new or old. The ORIGINAL ABETINE OINTMENT. Sold by Osburn & Shoemaker at 25 cents per box—by mail 30 cents.

Shortness of Breath.
Dr. Flint's Heart Remedy should be taken at once when slight exertion or a heavy meal produces shortness of breath or a pain in the region of the heart. At all druggists, or J. J. Mack & Co., 1 and 1 Front street, S. F.

ARE YOU MADE MISERABLE BY Indigestion, Constipation, Dizziness, Loss of Appetite, Yellow skin, chills, or a general feeling of debility? Acker's English Remedy is a positive cure. Sold by Osburn & Shoemaker.

The reason Why Acker's Blood Purifier is warranted, is because it is the best Blood Preparation known. It will positively cure all Blood Diseases, purifies the whole system, and thoroughly builds up the constitution. Remember, we guarantee it.

W. PINNIGER, Druggist.

"HACKMETAC" is a lasting and fragrant perfume. Price 25 and 50 cents. Sold by Osburn & Shoemaker.

STAGE ANECDOTES.

Recollections of Sam Phelps and Other Noted Actors.

Mr. John Coleman's lively little book, containing numberless anecdotes of Phelps, has just been published by the Messrs. Remington. We give here a few extracts:—

HOW PHELPS AND MACREADY FOUGHT.

"As to Macready," says Mr. Phelps, "I don't know how often I played him; I think every Monday night during the season. Of course you've heard of the row during the fight 'Mac' (Macready) let fly at me, nearly giving me a crack on the head, as he growled: 'D—n your eyes, take that!'"

"For the moment I was flustered, but when he returned to the charge I gave him a dose of his own physic (adding to the oath not only his eyes, but his limbs, too). He returned the compliment by heaping maledictions on my seed, breed and generation. Then he went for me and I went for him, and there we were growing at each other like a pair of wild beasts, until I finished him, amidst a furor of applause."

The audience were quite carried away by the running of the scene, and shouted themselves hoarse, roaring on the one side, 'Well done Mac!' on the other, 'Let him have it, Phelps!'"

When the curtain fell I gave him my hand to get up. He was puffing and blowing like a grampus.

"As soon as he could recover his wind he commenced:—

"Er—er, Mr. Phelps, what did you mean by making use of that extraordinary language to me?"

"What did you mean, Mr. Macready, by making use of such extraordinary language to me?"

"I, sir?"

"Yes, you, sir! You d—d my eyes!"

"And you, sir, d—d my limbs!"

"I could do no less than follow so good an example."

"With this the absurdity of the thing struck us both and we burst out laughing."

DOUGLAS JERROLD AND PHELPS.

In his youth Phelps used to play in a humble amateur company, and was foolish enough to invite Jerrold, then a printer in the same office with him, to witness the performance.

Phelps asked for his opinion.

"I have," he said, "made up your mind to chuck up the shop and go on this wild-goose chase?" said Jerrold.

"I have," he replied.

"Very well," he continued, "don't say afterwards I didn't warn you."

"Warn me!" I exclaimed. "Do you mean to say that I shall never make an actor?"

"No, I don't mean to say anything of the kind. You will make an actor—but," snarled the little viper, "you'll make a d—d bad one!"

When we were to move like a man and speak like a Christian, and get rid of your Devonian dialect, when you've had ten years' practice—if you're not starved to death in the interval—you'll succeed, if you're lucky, in getting thirty bob a week in some second-rate country theater.

And now, go to the d—l your own way! Good morning!"

A STAGG CROWD.

Even Mr. Irving might take a hint from the clever device which Mr. Phelps used to elude during his famous management of Sadler's Wells.

In "Henry V." in the march past before Agincourt, the troops defiled behind a "set-piece," which rose breast high. Madame Tussaud modeled eight men's heads—these were fitted on "dummy" figures of wicker work, clad in the costume and armor of the period. Every man of the gallant forty carried two of these figures, one on either side, attached to a sort of framework, which was lashed to his waist, hence it seemed as if they were marching three abreast. As they tramped past, banners streaming, drums beating, trumpets braying, the stage seemed crowded with soldiers, and the illusion was so perfect that the audience never once discovered the artifice.

PHELPS AND FECHTER.

The relations between Phelps and Fechter were notoriously strained. Here is a stormy interview between the rivals, in which the latter, after intimating that the next production would be "Hamlet," blandly inquired what part Phelps would play in the piece.

"Oh! but I play Hamlet myself," responded the Frenchman.

"The d—l you do!" growled Phelps.

"Yes! So I thought, perhaps, you would play the Ghost?"

"You thought that I would play the Ghost to your Hamlet—yours! Well, d—n your impudence!"

With this the interview terminated, and Phelps' engagement terminated soon after, amidst a blaze of legal fireworks.—(Pall Mall Gazette.)

"That reminds me," said a youngish sort of a newspaper man, "that I forgot my name not long ago. I had been out West for several months, and was in the habit of calling at the general delivery of the post-office for my mail. The clerk who was usually on duty there learned to know me, and I never thought of giving my name when I asked for mail. On this occasion I was expecting a rather important letter, and I found a new clerk on duty at the window. When I asked for letters, he demanded, with some suddenness, my name. It came on my mind while my mind was intent on the subject of the expected letter, and do you know that I absolutely forgot my own name. I walked off a few feet and stood for several minutes trying to recall my name. I could not do it. Then it struck me that I was losing my mind, that I was becoming insane, and I dashed out of the building a little wildly. As my foot was on the last step, memory came back. My name was clear to me, and I returned and got my letters."—(Chicago Inter-Ocean.)

Heroes and Heroines.

There are few who endure bodily troubles without complaint. Did you ever meet among the heroes or heroines of your acquaintance any such there have been—one with a yellowish cast of countenance and that jaundiced aspect generally, which the most unprincipled eye recognizes as the product of a disordered liver, who did not complain, and peevishly, too, of the soreness of the recalcitrant organ, of pains beneath the bowels, banish bilious head-ach and remove impediments to complete digestion, of course you never did, and of course the individual was not using Hostetter's Stomach Bitters, or he would not so have looked—so have complained. To purify the blood when contaminated with bile, and conduct the secretion into its proper channel, to re-establish regularity of the bowels, banish bilious head-ach and remove impediments to complete digestion, of course you never did, and of course the individual was not using Hostetter's Stomach Bitters, or he would not so have looked—so have complained. To purify the blood when contaminated with bile, and conduct the secretion into its proper channel, to re-establish regularity of the bowels, banish bilious head-ach and remove impediments to complete digestion, of course you never did, and of course the individual was not using Hostetter's Stomach Bitters, or he would not so have looked—so have complained. To purify the blood when contaminated with bile, and conduct the secretion into its proper channel, to re-establish regularity of the bowels, banish bilious head-ach and remove impediments to complete digestion, of course you never did, and of course the individual was not using Hostetter's Stomach Bitters, or he would not so have looked—so have complained. To purify the blood when contaminated with bile, and conduct the secretion into its proper channel, to re-establish regularity of the bowels, banish bilious head-ach and remove impediments to complete digestion, of course you never did, and of course the individual was not using Hostetter's Stomach Bitters, or he would not so have looked—so have complained. To purify the blood when contaminated with bile, and conduct the secretion into its proper channel, to re-establish regularity of the bowels, banish bilious head-ach and remove impediments to complete digestion, of course you never did, and of course the individual was not using Hostetter's Stomach Bitters, or he would not so have looked—so have complained. To purify the blood when contaminated with bile, and conduct the secretion into its proper channel, to re-establish regularity of the bowels, banish bilious head-ach and remove impediments to complete digestion, of course you never did, and of course the individual was not using Hostetter's Stomach Bitters, or he would not so have looked—so have complained. To purify the blood when contaminated with bile, and conduct the secretion into its proper channel, to re-establish regularity of the bowels, banish bilious head-ach and remove impediments to complete digestion, of course you never did, and of course the individual was not using Hostetter's Stomach Bitters, or he would not so have looked—so have complained. To purify the blood when contaminated with bile, and conduct the secretion into its proper channel, to re-establish regularity of the bowels, banish bilious head-ach and remove impediments to complete digestion, of course you never did, and of course the individual was not using Hostetter's Stomach Bitters, or he would not so have looked—so have complained. MOTEL ARRIVALS.

DEPORT HOTEL—Henry Hill, F. C. Ory, B. F. Schwartz, A. Goldstein, John McGowan, J. A. Mendonhall, J. Agard, J. Wiseman, P. N. Feldman, San Francisco; Mrs. Charles Derby, Glendale; T. C. Markley, New York; L. G. Clarke, Alturas, Cal.; A. B. Wilbraham, Miss Rowe, T. B. Rowe, A. E. Lasker, C. Ellis, England; Miss Nellie Dregunian, Virginia City; Albert Helmsheimer, J. A. Swope, Glenwood, Iowa; T. G. Herman, J. Randall, W. H. Pierson, Wadsworth; George Smith, Sacramento; W. J. Parmer, Duck Flat; Mrs. Bass, Susanville; R. Tolson, J. N. Fordling, Carson; C. O. Porter, Washoe; E. L. Heriot, Reno.

PALACE HOTEL—Mrs. N. A. Campbell, Carson; George Mescham, Humboldt; W. S. Johnson, San Francisco; B. F. Dolan, R. Peacock, Ben Cowles, Wadsworth; G. H. Hamor, James Crasler, Candelaria; George Small, Fort Bidwell; William Moore, Lovelock; Frank Krause, Virginia City; John O'Donnell, Reno; L. Davis, Jr., Moran.

LAFAYETTE HOUSE—Henry Renis, San Francisco; Joseph Odell, Junction; Mrs. H. A. Free, William Chapman, Verdi; Bert Crawford, Carson; William Clending, Reno.

JOTTINGS.

Subscribe for the GAZETTE.
Piano and organ tuner. See 50-cent column.
Read the 50-cent ad. of money to loan in today's paper.
Fine carriages, side bar or end spring at T. Longabaugh's Reno, Nevada.
Go to Osburn & Shoemaker's and try a drink of Moxie and soda, the great nerve food.
Tahiti oranges, Sicily lemons and all kinds of fresh fruits at Coffin & Larcombe's.
Pinand's Eau de Quinine and Sae de Toilette soap, with many other fine articles, sold at Fasset's drug store.
All kinds of legal blanks, writing tablets and the works of the most popular authors at C. J. Brookins' variety store.
By using a few pounds of J. F. Aitken's clear mountain lard your butter will always be hard and your meats perfectly sweet.
But few jewelry stores anywhere carry a finer stock of all the latest styles of watches and jewelry than can be seen at J. H. Herz's.
E. C. Leadbetter is the daily receipt of watermelons, cantaloupes and all other kinds of fresh vegetables direct from the gardens.
To be always sure of sweet, tender meats, buy your roasts, steaks, chops, cutlets and corned beef of J. Frazer, who deals in none but the best.
By taking your midday lunches at J. J. Becker's you will save more than their cost in shoe leather. Both Sacramento and Boos beer, as cool as ice can make it.
Before paying out your good money for goods that are entirely out of fashion, examine the stock of clothing being carried by Abraham Bros. of the White House.
Fred Kolster does not claim to carry the largest grocery stock in town, but he does claim that his goods are second to none, and that his prices are as low as the lowest.
C. A. Thurston is carrying a fine stock of both pen and pencil writing tablets, which will be found very convenient for campers and travelers who wish to take notes of what they see and hear.

Cold Weather in California.

A Renoite who arrived home on this morning's train from San Francisco says the weather there yesterday was disagreeably cool. He visited Santa Cruz several days ago, and found many there dissatisfied as to their choice of places to spend the summer vacation, it being too cool to enjoy the bathing. Quite a number were leaving for the mountain resorts.

James McCord.

James McCord, who figured so conspicuously in the notorious Sutter street railroad strike in San Francisco, passed through for the Bay last night. He came from Denver, where, at a salary of \$5,000 per year as manager, he is laying the cable for the Denver Cablecar Company.

GROUP, WHOPPING COUGH and Bronchitis immediately relieved by Rihbo's Cure. Sold by Osburn & Shoemaker.

THE WASHOE NURSERY.

Mr. H. P. M. Kelly—Fruit and Shade Trees—Currants, Blackberries, Etc.—Flowers in Abundance.

"The nursery that sanctifies expense." And splendor borrows all her rays from sense.
It has often been said that a people who not only loved fruit and flowers, but who cultivated them, were not much given to criminality. I do not know how general the application of this rule is, but as applied to our own city, it stands today uncontradicted. I believe there is not a single residence in Reno that has been occupied for any time, but is surrounded by lovely fruit and shade trees, as well as an abundance of sweet-smelling flowers. They indicate a taste that should ever be encouraged, as they most nearly represent ourselves in their coming from and re-entering the great bosom of nature.

The aboriginals are as content among the sagebrush as if they slept every night on a bed of roses. Not so with the people of this lovely valley. They much prefer the splendor of such scenes as can only be enjoyed by those who love to be and are surrounded with the choicest plants, rarest flowers and loveliest trees secure than to live in plain, unadorned dwellings.

So today I thought I would endeavor, knowing that such a lavish appearance of evergreens as now make the city by the river side appear so lovely involved considerable expense, to satisfy my curiosity, and if it will not weary the reader, I will try to convince him that it is use alone that sanctifies expense."

I visited the extensive WASHOE ORCHARD AND NURSERY OF Mr. R. P. M. Kelly, at the corner of Sierra and Seventh streets. There I met the gentleman himself, who is now in his 56th year, and was informed by him that he was educated when a boy by his father, who was a nurseryman on Staten Island, New York. The grounds Mr. Kelly now cultivates were formerly covered with alfalfa, and when he purchased it in 1870 he began to reclaim, manure and prepare the grand picture, which now delights the eye of the stranger. For five long years he toiled and struggled until nature rewarded his exertions with a bountiful supply of fruit and thousands of healthy young trees. The former met with a rapid sale and astonished all Nevada. The latter were purchased by people from every section, and to-day are among the most productive in the State. From that period on

MR. KELLY
Gave his undivided attention to grafting, so that when I visited his beautiful place I saw no less than 25,000 one-year-old fruit trees of every description, 25,000 two-year-olds, and so on, and they are disappearing rapidly. He said that orchard men and ranchers make a great mistake in not purchasing young trees grown here, because with ordinary attention, in a few years, they would repay the investment made in them. "It is a mistake," said he, "to think that the trees sold here by druggists from California can compete with those that are indigenous to the soil. I have never sold any young trees in Nevada that did not thrive, because I would not ship any that I had not tested the growing and producing qualities of, for whatever prospers here, with the necessary water supply, will flourish and bloom in any part of the State. Whereas, those shipped from California were nurtured in a more tropical climate, and are not fitted even by nature to our soil. Our apple trees alone defy the world, while our pear and peach trees need no commentary at my hands, as I have been compelled each season to prop them up, so weighty were they with the fruit they bore, all of which found a ready market." OF

SHADE TREES
He said it was his watchfulness and experience that enabled him to speak intelligently, and therefore he recommended the locust, box elder, elm, and arbor vitae, as they are the hardiest and longest lived, and best adapted to the climate of Nevada, and make lovely shade trees, as well as enhance and beautify the residence or dwelling on a ranch or in the city. The maple and Carolina poplar are splendid shade trees and live long to shed their loveliness over their owners in the summer season. The former is a native of Oregon, and therefore easily cultivated here. Fine and luxuriant samples of these pretty green trees can be seen in his orchard any day and will well repay the visitor.

Calling his attention to the nursery, he quickly responded by saying, "Come with me, and you can see for yourself." I obeyed, but not being versed in the strange language botanical experts indulge in, I had to be content in the enjoyment of my imagination under what I found myself confronted by as that which presented itself to my view. There were flowers of every shape, variety and color on tall, short, thin and slender stalks peering out from a

MYRIAD OF YOUNG TREES,
Filling the air with their delicious aroma. One felt like remaining for months instead of a few short hours, so enchanting was the scene. They covered acres of ground and appeared to say, "Come and take me," when I unwittingly said: "I won't bother the flowers that bloom in the Spring." There were snowdrops, flowering almonds, bridal wreaths, Japanicas, heavy showy flowery currant, Canterbury bell, honeysuckle, sweet scented Jay, hybrid perpetual roses, running roses, moss roses in variety, sweet Williams and pasties of every color and variety, plums in abundance that defy even the storms of winter, and high above the majority of all in graceful attitude gently nodding under the passing summer breeze stood the variegated perennials. But to go on, I would not only lose myself in a maze, but confound my

reader at the slight ability I possess to do justice to so pleasant a subject. Leaving

THIS BEAUTIFUL PLACE
I soon came in contact with the strawberry, currant, gooseberry, blackberry and raspberry family, and was delighted to pluck from the hardy bushes the delicious morsels, and smack my lips with pleasure and satisfaction. Mr. Kelly here informed me that there was nothing to prevent Nevadans from growing the English gooseberry, and that they were very profitable, as he showed me a variety that were as large as pigeon's eggs; and as to black currants, they were everywhere in this state, and are in great demand. He shipped trees, flower shrubs, etc., this Spring to all parts of the State, embracing in his orders such gentlemen as U. S. Senator Stewart, Governor Stevenson, H. F. Bartine, Judge Leonard, Messrs. Dougherty, Sprinkle, Cunningham, and hundreds of other prominent citizens.

When reaching his office he said, "Look at that

LOVELY GRAPE VINE;
It is loaded down with the nicest and finest flavored little black grape that grows. The plants of this hardy fellow were given to me by the proprietor of the GAZETTE, and from I can safely assert it will grow anywhere in the State." On entering his office the two most prominent features which attracted my notice were diplomas. One was from the Commissioners of the North American Exposition at New Orleans, 1885-86, from whom he received the first premium for Spitzenburg apples, and the other is from the Commissioners of Nevada, who awarded him the first premium for the best variety of peaches.
After lighting a cigar and returning again among the roses, Mr. Kelly loaded me down with an abundant quantity of every variety, and in the form of a sweet-scented bouquet, can now be seen at the GAZETTE office, where I left it and prepared this hastily written article.

PERSONAL.

Mrs. H. A. Free, of Verdi, was in town last evening.
Mr. and Mrs. George M. Stewart are at Lake Tahoe.
Judge T. D. Edwards, of Carson, went below last night.
E. L. Heriot returned this morning from San Francisco.
Colonel Robert Lindsay has returned from Lake Tahoe.
Master Mechanic Fordling, of the V. & T., was in town this morning.
T. G. Herman came up from Wadsworth on last night's overland.
Governor and Mrs. Stevenson are spending a week at Tallac, Lake Tahoe.

Judge Bigelow returned last evening from the Eastern part of the State where he had been holding Court.
George W. Baker and wife, of Eureka, passed through on last night's overland train for San Francisco.

J. H. Dennis, of the Battle Mountain Central Nevada, passed East this morning, on his way home from the Bay.
R. L. Thomas, who with his family is spending the Summer in San Francisco, arrived from below this morning.

Mrs. Frank Boske, of San Francisco, who has been visiting Carson friends, is visiting Mrs. J. A. Fitzgerald, of the Depot Hotel.

Frank Hleok, son of Mrs. Fred Moeller, arrived last Sunday from San Francisco on a visit to his mother and stepfather.
J. L. Wines, of Eureka, and Colonel Joseph Grandelmeier, of Hamilton, were among the passengers for the Bay on last night's overland.

Governor and Mrs. Adams arrived in Carson Monday evening from a prolonged sojourn in Southeastern Nevada. They came by way of the G. & C. railroad.

L. J. Moore's Case.

The case against L. J. Moore, who is accused of murdering his daughter Alice at Glendale, this county, two years ago last April, came on for trial in the District Court this morning. The number of spectators present was large. The wife and family of the prisoner were absent, but alongside of him sat his brother, Wm. Moore, of Humboldt County, and his sister, Mrs. Campbell, of Carson. Up to 3 o'clock this afternoon the counsel had failed to secure a jury. Alf Chartz, the short-hand reporter, arrived on the noon train from Virginia City, and will "take down" the testimony as given in the case.

A Fine House.

The elegant house of 14 rooms being built on Mill street by W. O. H. Martin will probably be ready for occupancy by the first of September. It has received its first coat of plastering, and will soon be ready for the painter. All of the six bedrooms on the second floor will have marble-top stationary washstands placed in arched niches, each to be supplied with hot and cold water. The mantel-pieces are rich and elaborate, and of the latest designs. When completed it will, undoubtedly, be one of the finest residences in Nevada.

The Last Man.

A short-legged, corpulent, bald-headed fat man was the "last man" to board the daylight train as it pulled out for Sacramento this morning. For a man of his age and shape, he was making pretty good headway, and was just about making a stand off when the train slowed down to open the switch to let it onto the main track, when fatty reached the blind platform and was lifted on board by the conductor and a stalwart brakeman. No matter when a train pulls out, there is most always some one who is not quite ready to get aboard, and many accidents are frequently caused in this way.

LOCAL AND GENERAL NEWS.

The hay crop in the lower end of Paradise Valley is reported light.

Miss Hannah Bryant has been appointed Postmistress of Empire City.

Mrs. Jennie Lewis has bought for her own use, a nice phaeton, harness and horse.

Produce dealers in town are offering ranchers 30 cents a dozen for fresh eggs.

An attempt is being made to induce the Finlayson sisters, of Reno, and Dickie Jones, to give a concert in Carson. So says the Appeal.

"Jack" McGrath, for many years a resident of Eastern Nevada, and now a drummer for a prominent San Francisco liquor house, is in town.

Charles Pohl, second mate of the schooner Excelsior, was drowned in the Columbia river last Monday. He leaves a son and married daughter in San Francisco.

Through the failure of the Ottawa authorities to forward the papers to Victoria, B. C., it will be two weeks before Clark, the Truckee forger, can be taken to California.

It is reported that the Young America mine, near Sierra City, is about to pass into the hands of the San Francisco Chronicle, which will pay \$2,500,000 for the property.

Fires are reported to be raging furiously through the heavy timber along the California & Oregon railroad, north of Sissons. Four large fires were visible from Sissons last Sunday.

It is believed the genuine Pete Olsen worked in a mine at Cascade, Montana, a few days, but he came alarmed and left there the first of this month, not stopping to draw his pay for work done.

Professor Chester, the aeronaut, got a fall in attempting an ascension at Stockton last Sunday. The balloon struck a tree about fifty feet from the ground and he fell. He was badly injured.

President John Taylor, of the Mormon Church, who for a long time has been hiding from the United States authorities, is said to be lying at the point of death in his hiding place in Salt Lake City.

Dr. Bergstein completed last night a chemical analysis of the stomach of Alice Moore, whose remains were exhumed some time ago, and for whose alleged murder her father is now on trial in the District Court.

A negro preacher in a South Georgia county asked his congregation the other day for a short vacation. An old sister objected, giving as a reason "dat de debil nebber takes no hollerday, but he git in his wuk ev'ry minute."

THE \$26,674 15 Relief Fund.

At a meeting of the Virginia Relief Fund Committee held Monday evening warrants were drawn in favor of Mrs. Bean, Mrs. Dougherty, Mrs. Eddy, Mrs. Carpenter, Mrs. Jeffrey and Mrs. Morgan for \$300 each to meet their immediate wants. A final distribution will not, says the Chronicle, be made until all the persons entitled to the benefit of the fund are heard from. Some of them are said to be residents of Cornwall, England.

A Disappointment.

A large crowd collected at the depot in Virginia City yesterday to see Langtry, but were disappointed upon the arrival of the train to learn that the Lily had decided to go over from Carson by private conveyance. Her special car could not be taken to Virginia City on account of the dimensions not admitting of its passage through the Homestead tunnel.

RENO WATER.

A Scientific Analysis of that Now Supplied the Town and of Hunter Creek.

PRESENT SUMMARY.

OFFICE OF C. M. FASSETT, ANALYST AND ASSAYER.

RENO, NEV., JULY 18, 1917.

T. K. HYMERS, Esq., CHAIRMAN BOARD OF COUNTY COMMISSIONERS—DEAR SIR:
In accordance with your request I have made examinations of three samples of water furnished by you, with special reference to such impurities as would render the water unfit for domestic purposes. I am presenting the following report:

Sample No. 1 was taken from the river about one mile above town, at the point where the Highland ditch takes its supply; sample No. 2 was taken from the main water, four feet from the surface, near where the water used in the town is taken; sample No. 3 was taken from the Highland ditch just before it empties into the main reservoir. The following is a tabulated statement of the results of the tests made:

(In parts per million.)

SAMPLES.	No. 1.	No. 2.	No. 3.
Total solids.....	1,070	1,060	1,060
Free ammonia.....	.000	.000	.000
Albumenoid ammonia.....	.000	.000	.000

(In grains per gallon.)

SAMPLES.	No. 1.	No. 2.	No. 3.
Total solids.....	6.336	6.784	6.336
Organic solids.....	.614	.9216	.614
Mineral matter.....	4.916	5.868	5.726
Chlorine.....	Trace	Trace	Trace

The ammonia found indicates the presence of contamination from animal sources, such as sewage, decomposing animal matter, etc., and in Nos. 1 and 3 is in a small proportion as can be expected in a stream which flows through as many towns as the Truckee; while in No. 2 is in three times the quantity as in the others, and above the limit of safety—fixed by most authorities at .08 to .12 parts per million, and .18 to .20 parts per million albumenoid ammonia per million of water.

The second table shows the results obtained from careful evaporation of the water; drying and ignition of the residue in platinum crucibles, and proves that the water of the Truckee is as free from deleterious impurities as some of the water that is supplied to almost any city of the Union.

The results resulting from sawdust in the river would be shown in the table under the head of "organic solids," but in a small proportion as can be expected in a stream which flows through as many towns as the Truckee; while in No. 2 is in three times the quantity as in the others, and above the limit of safety—fixed by most authorities at .08 to .12 parts per million, and .18 to .20 parts per million albumenoid ammonia per million of water.

Mrs. Langtry as "Galatea."

This morning's Virginia Enterprise, after speaking of her personal charms and the large house that greeted her last night in that city, says of the Lily's personation of "Galatea": "In the first act when Mrs. Langtry appeared as Pygmalion's statue of Galatea, scarcely a ripple of approbation was heard. It was not until the second act that the audience overcame its coolness and gave her deserved applause. Her charming simulation of innocence and simplicity attracted every auditor. Mrs. Langtry is not a great actress, but she is a very pleasing one, and if we adopt the approval of the audience as the touchstone by which to measure her success, it was certainly great last night."

A Good Grazing Country.

Says yesterday's Silver State: Colonel Frank Sweetser and David Giroux returned from the Owyhee country yesterday. They say cattle and horses up that way are looking splendidly. There is fine grass and plenty of it, and it is a very pleasing one, and if we adopt the approval of the audience as the touchstone by which to measure her success, it was certainly great last night."

A Lake Trip.

A party of ladies, consisting of Mrs. H. H. Beck, of Reno, Mrs. Parker, of Carson, and the two Misses Corbin, of San Francisco, left Reno this morning on a round trip to Lake Tahoe via Carson, Glenbrook, Tahoe City and Truckee.

Why suffer with bleeding, blind, itching, and ulcers, piles, catarrhs, old sores, chapped hands, when a few applications of Fryer's Aftershave Ointment is guaranteed to effect a cure? Price 25 cents. Sold by W. Pinniger, Reno, Nevada. All genuine Aftershave preparations bear the fac-simile signature of D. F. Fryer.

An Extended Popularity. BROWN'S RHOCHAL TROCHES have been before the public many years. They are pronounced superior to all other remedies for similar purposes. For relieving Croup, Colds and Throat Diseases they have been proved reliable.

DIED.

RAY—In Butler, Bates county, Missouri, William R. Ray, formerly of Washoe Valley, Nevada, aged about 25 years.

ROYAL BAKING POWDER

Absolutely Pure.

This powder never varies. A marvel of purity, strength and wholesomeness. No adulteration! The ordinary kinds and cannot be sold in competition with the multitude of low test, short weight brands or phosphate powders. Sold only in cans. ROYAL BAKING POWDER CO., 100 Wall St., N. Y.

RENO WATER.

A Scientific Analysis of that Now Supplied the Town and of Hunter Creek.

PRESENT SUMMARY.

OFFICE OF C. M. FASSETT, ANALYST AND ASSAYER.

RENO, NEV., JULY 18, 1917.

T. K. HYMERS, Esq., CHAIRMAN BOARD OF COUNTY COMMISSIONERS—DEAR SIR:
In accordance with your request I have made examinations of three samples of water furnished by you, with special reference to such impurities as would render the water unfit for domestic purposes. I am presenting the following report:

Sample No. 1 was taken from the river about one mile above town, at the point where the Highland ditch takes its supply; sample No. 2 was taken from the main water, four feet from the surface, near where the water used in the town is taken; sample No. 3 was taken from the Highland ditch just before it empties into the main reservoir. The following is a tabulated statement of the results of the tests made:

(In parts per million.)

SAMPLES.	No. 1.	No. 2.	No. 3.
Total solids.....	1,070	1,060	1,060
Free ammonia.....	.000	.000	.000
Albumenoid ammonia.....	.000	.000	.000

(In grains per gallon.)

SAMPLES.	No. 1.	No. 2.	No. 3.
Total solids.....	6.336	6.784	6.336
Organic solids.....	.614	.9216	.614
Mineral matter.....	4.916	5.868	5.726
Chlorine.....	Trace	Trace	Trace

The ammonia found indicates the presence of contamination from animal sources, such as sewage, decomposing animal matter, etc., and in Nos. 1 and 3 is in a small proportion as can be expected in a stream which flows through as many towns as the Truckee; while in No. 2 is in three times the quantity as in the others, and above the limit of safety—fixed by most authorities at .08 to .12 parts per million, and .18 to .20 parts per million albumenoid ammonia per million of water.

The second table shows the results obtained from careful evaporation of the water; drying and ignition of the residue in platinum crucibles, and proves that the water of the Truckee is as free from deleterious impurities as some of the water that is supplied to almost any city of the Union.

The results resulting from sawdust in the river would be shown in the table under the head of "organic solids," but in a small proportion as can be expected in a stream which flows through as many towns as the Truckee; while in No. 2 is in three times the quantity as in the others, and above the limit of safety—fixed by most authorities at .08 to .12 parts per million, and .18 to .20 parts per million albumenoid ammonia per million of water.

The second table shows the results obtained from careful evaporation of the water; drying and ignition of the residue in platinum crucibles, and proves that the water of the Truckee is as free from deleterious impurities as some of the water that is supplied to almost any city of the Union.

HUNTER CREEK.

RENO, NEVADA, JULY 14, 1917.

RENO AND HUNTER CREEK WATER CO.—GENTLEMEN:—A few days ago, at the request of, and in company with Mr. James Mayberry, of your corporation, I visited Hunter Creek and obtained a sample of water from that stream, which I have carefully analyzed with results as stated below:

I find the water to be soft, clear and without color, odor or taste; of slight alkaline reaction and containing no trace of contamination from animal sources. It contains a trace of organic matter of vegetable origin, and 4.408 grains of mineral matter per gallon, consisting principally of silica and salts of iron and iron. These results show that the water of Hunter Creek is of remarkable purity and eminently fitted for drinking and all domestic uses—in fact, a water more pure and healthful would be hard to find anywhere. Reno is to be congratulated on having an available supply of such excellent water.

Very respectfully yours,
C. M. FASSETT, Analyst.

OUR NEW STOCK

Dry Goods, Carpets & Fancy Goods

THE LARGEST ASSORTMENT

Ever brought to this State, and we are PREPARED TO SUIT EVERYBODY.

We Will Encourage Home Trade

By Offering our Goods strictly at
